

Light glistens upon this reborn flame
The convergence of worlds
A soul once cast alight
Condemned to the burning depths
Clawed back through the pits
Where lost hope lies

A revenant reclaimed
Final ascension as chaos which once reigned supreme resolves
Bereft of life and light
Order and peace may at last restore this barren realm

Revenant
Misbegotten soul reclaimed

Aeterna
Unto ashes breathes life
Time withers, aeons pass
Beyond the passage of light
To eternity, eternally
Before nothingness consumes
We shall remain

To eternity, eternally
We shall remain

Reborn of flame, we shall remain
The return of my light
Reparation of my blackened, abysmal beating heart
Fleeting are these dying dreams

Misbegotten soul reclaimed

Aeterna
Unto ashes breathes life
Time withers, aeons pass
Beyond the passage of light
To eternity, eternally
Before nothingness consumes
We shall remain

To eternity, eternally
We shall remain

Aeterna
Unto ashes breathes life
Time withers, aeons pass
Beyond the passage of light
To eternity, Immortality
Beneath a blackened sun
We shall remain until the end
