

## The Water Cure

Systematic

As a child I set the freedom down  
Guided my life about  
I believed what you said when you said you loved me  
Tried to smile I spent my life on trial  
Another broken child  
I pretend it's o.k. when you lie to love me  
You're the wolf outside my door  
And I swear you're waiting to break my soul  
Don't you know?  
I tried to live I tried to die  
Placed your hands over my life  
You tried to run you tried to hide  
You're the water cure of life  
As a man I played the game again  
I tried to call you friend  
As you kick in my face while you say you trust me
