High
Higher, baby

Are you livin'? Are you doin' fine?
Are you gettin' money? Do you need a ride?
I've been livin' off Adderall, for like three months straight and I
I've been trippin', I've been gettin' mine
I've been dippin', I've been livin' life
I appreciate the high life
But I just wish things were better
Between the ones that I love
No, I don't want to try hard
Just don't wanna be, don't wanna be alone

Stuck with just weed and no friends
Weed and my pen
End of the day, it's just trees in the wind
Day in the wind, day in the wind
D-d-day in the wind
Day in the wind, t-t-trees in the wind
Trees in the wind, trees in the wind, trees in the wind
D-d-day in the wind (Blow it down, blow it down, pass it down)
(D-d-day in the wind, to the left)

I got a casing, got knocked out, I'm waitin'

To see if they'll take me to jail, no
Gee, I kinda hope they lock me up and throw away the key
'Cause I don't wanna go to work this week, anyway
Woke up like, "Why me?"
I heard that waist training get you a good boyfriend
I am not searching for one though
Girl, you too pretty, you could do better
Called you a cab in the mornin'
Girl, you know you should've call me
Would've roll it up, could've smoke it up with you
High, high-high, high, high-high, high
High, high-high, high, high-high, high, ayy

Stuck with just weed and no friends (Weed and no)
Weed and my pen
End of the day, it's just trees in the wind
Day in the wind, day in the wind
D-d-day in the wind
Day in the wind, t-t-trees in the wind
Trees in the wind, trees in the wind, trees in the wind (Blow it down
)
D-d-day in the wind
(Blow it down, blow it down
Pass it 'round, to the left)
