Stay the night  
Even if it's not for real  
Stay the night  
Only got you for a short time  
Going through a hard time  
Hoping you could carry my demons part time (My demons, oh)  
Asking too much past the basics  
Too much, just stay

Could it be we're just not right for each other?  
You say, "I bare the noose"  
We fuck her over, think of wondering to myself  
How I ruin it this time? Why try?  
But you know you're fucking with a diamond  
Lost the shine, then do it justice, baby, ew  
Heard you tryna build with a new bitch  
Give a front, I don't need this now  
I can't take no chances when you're manic  
You gon' make me go and get my bros on you  
Bows on you  
Running across my mind it's kinetic  
Connect to you, where it is  
Ain't no fucking with my timing, yeah, yeah  
Closed on Sunday, gotta get that good God in  
Sinning by Monday, you hit it from the side  
I can't stand the way you treat me  
Can't stand to watch you leave

Stay the night  
Even if it's not for real  
Stay the night  
Only got you for a short time  
Going through a hard time  
Hoping you could carry my demons part time  
Asking too much past the basics  
Too much, just stay

I miss you the most when my side do me dirty  
I might be a hoe but you match so it's okay  
I put you on hold, for the money, I can't play  
You so touch and go, I can't tell if it's all fake  
These bitches don't know you ain't shit, but I won't say  
Secret safe with me, fuck in the back of the jeep  
Fuck when you had no sheets  
How you mad at me? I'm your battery  
You should bow to me  
Baby girl, you know what they say  
"You ain't getting used, then you're fucking useless"  
Must be a dummy by the way you do me  
Coulda got some money, shoulda utilized me  
But this too late, and I'm so straight  
And them old ways, and we cold case  
I tap into the mmm, weed, yeah  
You talking all that shit but I ain't see no real yet  
Is you calm?

Stay the night

Even if it's not for real  
Stay the night  
Only got you for a short time  
Going through a hard time  
Hoping you could carry my demons part time  
Asking too much past the basics
