You who leave under the red sunset
It's a story y y that hasn't ended yet
As if a storm passed by in my heart
Did all your traces disappear? Ah ah

For your last night
Even when the sad rain pours, I to you
For your last night
I can't live losing you

Baby why?
In the sad starry night

Shout
Baby why?
Until the dawn before the sun rises
Come back to me

Lalalalalalala lalalalalalala
Lalalalalalalala
I love you until eternity

You in the western region are an outlaw
I'm a vagabond who's sad from losing my way
You lift up the gun of breakup
Aim at me and load it again, I got shot gun

From twilight to dawn, the deep loneliness
The tragedy that ended cruelly
Now when I'm falling
You blow air on the muzzle

For your last night
My night is too painful
For your last night
I'm too scared without you

Baby why?
In the sad starry night
Shout
Baby why?
Until the dawn before the sun rises

Because our love was fierce
It leaves a wound in each other's heart
You who has become dark and cold
Make me crazy and hurt me

Lie
Don't leave me
Baby, lie
That sentence saying I should forget you
Come back to me
My story ended
