이제 난 배미리 지새  
또 눈물흘리며 너를 미워해 이따 못해

아니 난 너를 사랑해  
사랑할수록 너를 미워해  
아니 난 너를 사랑해

아니 난 너를 사랑해  
사랑할수록 너를 미워해  
(아니 난 너를 사랑해)  
아니 난 너를 사랑해 come back to me

In my room, your stuff and  
Our pictures are still there  
They're still the same but only you are gone

As I shower, I look in the  
Mirror and I look sad  
I see my face and tears start to wash down again today

I press your phone number but hang up again  
Why do I like someone like you so much?  
(I stand in front of your house and come back)  
To ask her to give you back, come back to me

If I see her, I'll curse and shout  
Do you know how it feels to have you stolen by a friend?  
If I see her, I'll cry and cling onto her  
Asking her to give you back to me, because of you

Uh uh uh ye uh uh uh ye

My friends see you and judge you,  
Do you know the rumors?  
Do you know how badly my pride was hurt?

If you met a prettier girl than me  
If you met a better girl than me  
I wouldn't feel this cheated

I'm going back in the end  
I think I'll get exhausted now  
But I don't care about my crumpled heart  
If only you'll come back to me, come back to me

If I see her, I'll curse and shout  
Do you know how it feels to have you stolen by a friend?  
If I see her, I'll cry and cling onto her  
Asking her to give you back to me, because of you

Why can't you say anything?  
Can't you give an excuse?  
An unbelievable betrayal, we've dated  
For too long, had too many misunderstandings  
I stay up all night in tears, hating you, not forgetting you

Why can't you say anything?  
Can't you give an excuse?  
An unbelievable betrayal, we've dated  
For too long, had too many misunderstandings  
I stay up all night in tears, hating you, not forgetting you
