我 You're my shining star

Why are you like this?
Is it too dazzling? Even if you see it from far away
The voice that revives my heart just for a moment
It makes go back in time If I can't never see you again

Tell me how can I forget you
Also... If today I can see your smile
My eyes were deprived and my heart taken away
So I'm crying because I can't let you go

It's true love, the only one
For this wish I can swear to you
I'll always love you, with all of my heart
I embrace those feelings so they won't disappear
Until now you're my shining star

"Someday this pain
Will become part of my memories for sure"
My friends kindness embraces me
It melts the frozen time I tightly hold your hand
I try to walk so with my heart I can face
The tomorrow

It's true love though it hurts
To be in love is not something to be ashamed of
I'll always love you is written in my heart
I'll send you a love letter without address

There's only one person I can be with
While the wind blows
I wish you stay here right by my side
I wish your smile

It's true love, the only one
For this wish I can swear to you
I'll always love you, with all of my heart
I embrace those feelings so they won't disappear
Until now you're my shining star
