Ooh Ooh
Number nine

You put me in so much pain Do you remember
Us back when the stars were shining?
You hateful person, who has stolen my heart
Hey, it hurts so much right now

(Number nine) Only you can make me laugh
(Number nine) Only you can make me cry
(Number nine) You are my tuxedo mask
The hero who protected me
But you left me and I hate you

I need you number nine, number nine
Number nine. Don't leave me
Did you forget me number nine, number nine
Number nine Without you
I can't fall asleep at night

It's because I'm in so much pain
It's because I'm in so much pain
You, who has taken all of my heart
Where are you? Come back to me number nine

Stop playing games with me. It's hard
Being played with Do you remember the
Days when we made the figs bloom into flowers?
It hurts so much right now

(Number nine) Only you can make me laugh
(Number nine) Only you can make me cry
(Number nine) You are my tuxedo mask
The hero who protected me
But you left me and I hate you

I need you number nine, number nine
Number nine Don't leave me
Did you forget me number nine, number nine
Number nine Without you
I can't fall asleep at night

It's because I'm in so much pain
It's because I'm in so much pain
You, who has taken all of my heart, where are you?
Come back to me number nine

I'm addict I'm addict I'm addict I'm addict
I'm addict I'm addict I'm addict I'm addict
When I close my eyes and open them
I'm still here alone I'm in the dark in the dark
I'm dancing in the dark

I need you, don't leave me
Without you, I can't fall asleep at night

(Oh~ Woah~) It's because I'm in so much pain
It's because I'm in so much pain
You, who has taken all of my heart
Where are you? Come back to me number nine
