Good Days Bad Days

T. Graham Brown

Everybody wants to know how I get along
In these dark days since you've been gone
Sometimes I'm fine and sometimes I'm dyin'
Stumblin' through one step at a time

I have good days and bad days
Sunshine and rain
Good days and bad days
But some things never change

Some days I wake up and make up my mind
Today is the day I'll leave the past all behind
And I'm all right 'til the sundown again
And then I'm right back where I've always been

I have good days and bad days
Sunshine and rain
Good days and bad days
But some things never change
Oh, my nights are all the same

Tonight I'll go home to the same old routine
Dinner for one by a phone that don't ring
What's the use of going out on the town
I know I'll never wear your memory down

I have good days, bad days
Sunshine and rain
Good days, bad days
But some things never change
Oh, the nights are all the same

I keep havin' those good days, bad days
Keep havin' those good days, bad days
