

VACAY

T.I.

(Champuru Makhenzo)

Play around if you want to (Want to)
Wait around what I won't do (Won't do)
Play around if you want to (Want to)
Wait around what I won't do (Won't do)
Okay now wait a minute
Shout it pretty, gotta buy the answer paper with it
If you want to get her outta clothes, it gon' take a minute
Mother bitch, if they pretendin', don't be hangin' with 'em
Bitches oughta pay you a percent, it's so authentic
See how you wear your blouse, she don't need a bra with it
Ain't gotta have a pay for a couple cars in it
That pretty booty organic, not augmented
You give a damn if it was, I'm in love with it
Leave the club with it
She say she want a gentleman, still a thug with it
Fresh face card, ain't no thuggy, bitch
Pretty hair make a nigga wanna rub the shit
Have fun, make you wanna put your tongue in it
You hit it good, she may let you put your thumb in it
Put your face in the right place, hum in it
Pussy good, make you wanna make promises
And if you wanna fuck raw, fuck the consequence
Give it to her, make her feel it where your tonsils at
That ass hangin' out the bed, that's how you like that
Same dick, make her run, run her ass right back, yeah

Six days on a vacay (Vacay)
Sick girl on a play date (Play date)
Got six days on a vacay (Vacay)
But this here not for play-play (Ayy)
Big bags makin' millions, it's a payday (Payday)
Picture me in the middle of the melee
Drop stacks of it on her, make her ass get to it
Put her ass in position, let her hair do it

She ain't thinkin' she can take it but she doin' it
Have her squirtin' in the bed, finna ruin it
Now when we finished, I'ma buy a pair of Louboutins
Told her homegirl about me and I flew 'em in
I lift her skirt, heated floor at the front door
Put her hands on her, show her what she in for
She say she like it rough, I told her ten four
Said she already bust, I told her ten more
Got a man at home and made a detour
She said she love him, but love me more
When she kiss it, make me wonder where her teeth go
When you start playin' games, I'm the cheat code
She said "I give you one shot", that's a free throw
"And if you make that, then you can keep goin'"
Ignore a nigga, she said I ain't worth a Akoin
I say you're hard on her, man, and I'ma pray for him
Gumstream, F1, we in rare form
Man, I'ma have to call somebody to do the L form
Your homegirl told you, gave you fair warnin'
Said you better get some braids and prepare for him

Told her man she was goin' on a girl trip
I get beside me, ain't nothin' but girl here
Had a time of your life, come to paradise
Had her ass shakin' like a pair of dice

Six days on a vacay (Vacay)
Sick girl on a play date (Play date)
Got six days on a vacay (Vacay)
