

# Shot

T-killah

You pulled the trigger and the night froze  
All the people stopped to see  
Then my heart fell into pieces  
And the skies crashed down on me

You pulled the trigger and the night froze  
All the people stopped to see  
Then my heart fell into pieces  
And the skies crashed down on me

It was the shot heard around the world  
It was the shot heard around the world

When I saw ya, it was love at first sight...  
You knew what you were doing, didn't care at what price  
Ause I would hold you down... but I won't hold you down  
I thought I was the player girl... but you can play around  
Your on another level, you dirty, you know it  
Playing like you're innocent, not trying to show it  
Doesn't even matter cause to you I never mattered  
You cut my heart out from my chest and served it on a platter

You said forever, I should've known  
You're here one minute, but now you're gone  
You keep on talking, but I don't hear none  
Cause the damage is done

You pulled the trigger and the night froze  
All the people stopped to see  
Then my heart fell into pieces  
And the skies crashed down on me

It was the shot heard around the world  
It was the shot heard around the world

My love for you has gone away  
I won't waste another day  
If you wanna leave, it's not to my dismay.  
You can keep it low... yeah, you can keep it low  
Acting like a beginner but you're really a pro  
Never woulda guessed you were like the rest  
Thought you were the best, but you were something less  
My love was on the line, you had my heart and mind  
To turn your back on someone who loves you should be a crime

You said forever, I should've known  
You're here one minute, but now you're gone  
You keep on talking, but I don't hear none  
Cause the damage is done

You pulled the trigger and the night froze  
All the people stopped to see  
Then my heart fell into pieces  
And the skies crashed down on me

It was the shot heard around the world  
It was the shot heard around the world

Put my guard down, that's what I get  
Caught your bullet right in my chest  
Put my guard down, that's what I get  
Caught your bullet right in my chest

You pulled the trigger and the night froze  
All the people stopped to see  
Then my heart fell into pieces  
And the skies crashed down on me

It was the shot heard around the world  
It was the shot heard around the world
