

Yeah, head to toe, girl, you are so perfect  
 No, I'm afraid to tell you in person  
 I can't wait till we close the curtain  
 Girl, I'm ready, yeah, I've been certain

Yeah, girl, you know we go together real bad  
 Girl, you're real bad, and I feel that  
 When you're looking at me like that  
 I hope you're ready for the body contact

I beg you, give me that sweet, sweet connection  
 Body to body, when we go one-to-one  
 Mmm, I know you're feeling that sweet, sweet connection  
 So don't leave me long, 'cause I'll be holding on to you  
 When the night is over

Body like Shenyang, my definition of adventure  
 Girl, you're special, nobody on your level  
 The way you are, playing with my mental, woah-woah-woah  
 Drumming your body like, woah-woah-woah

Yeah, she love it when I come inside and stay inside  
 And I beat the bump, I'm right  
 Girl, I see you in the darkness  
 Make it come finish where you started

When I blunt it, don't move her heart if I put it all in  
 Tell me, do you feel it, twin? 'Cause I'm feeling it  
 Yeah, she love it when I come inside and stay inside  
 And I beat the bump, I'm right

I beg you, give me that sweet, sweet connection  
 Body to body, when we go one-to-one  
 Mmm, I know you're feeling that sweet, sweet connection  
 So don't leave me long, 'cause I'll be holding on to you  
 When the night is over

Tell her, come in on me, yeah, if you're coming on me, yeah  
 We can take it to the car, I can fuck you where you want  
 Girl, you know I'm genuine, I can buy you anything  
 But I can't guarantee, I'm gon' get the wedding ring

Girl, I beg you, do your dance, baby, slowly fuck it up  
 And let me warm it up, love it when I touch it up  
 I want all of you, a little bit is not enough, is not enough

I beg you, give me that sweet, sweet connection  
 Body to body, when we go one-to-one  
 Mmm, I know you're feeling that sweet, sweet connection  
 So don't leave me long, 'cause I'll be holding on to you  
 When the night is over

When the night is over  
 When the night is over
