T Mulla

Hella fumes in the car, so we faded
Wave them away, but we made it
See the bod there, far from the basic
If you open the pot, you can trace it
I fix with the status
Bro get fan love, but he ain't famous
And my ex ting's hating
'Cause she's on Snapchat watching us make it
Ha, make this movie
Make this soovy
Bottles and bust downs
Batties and boobies
Livin' this comfy life
My ex is mad they can't touch me twice
She said it must be nice
Trust me, darling, gotta tell them twice

Link up, play this
Let's get faded
And that bust down swayin'
Touch down, made it
Link up, play this
Let's get faded
And that bust down swayin'
Touch down, made it

Why can't life always be this mellow?
10-10 bad Bs and fellows
Somebody pass him the eye drops
See his eyes looking green and yellow
From young I could never trust no one
I said not to trust that gyellow
We might vibe, but she don't get no funds
No one dime, she gets zil
She's in the whip with man
Like, "What happens when I push this button?"
She can get this tan
Like, "What happens when I push in somethin'?"
Please tell me you won't run
You know the tight tight girls ain't no fun
Show me what you been learnin'
But if she's loose, she'll hold more

Link up, play this
Let's get faded
And that bust down swayin'
Touch down, made it

So we touch down, touch down
All the whips bust down, bust down
Stoosh one movin', bust out, bust out
We ain't gotta take that, yup now
Make gyallie bring it back
Ayy, baby, can you show that?
Ayy, she knows the game plan
Fireworks, pop, crackle and bang
