Tonight's the night
Dim down the lights
I'm holding you tight
We feel too comfortable
Tonight's the night I'm wanting you
Tonight's the night
Dim down the lights
I'm holding you tight
We feel too comfortable
Tonight's the night I'm wanting you

Baby shine like VVS
This is the high life be prepared
For me to shine I need you here
You're like dancing diamonds
My responsibility
See you're my comfortability
I'm what you want
You're what I want
Shine like the sun baby

They don't see what I see
You're the diamond in me
I've been running round in these streets
And you help me take them over
Show you off and flash you like my big chain (like my big chain)
When them haters see you they feel big pain
(Tonight's the night) when I'm coming over
(Tonight's the night) when I need you home
(Tonight's the night) girl I'm calling for you
(Tonight's the night) please don't leave me lonely
(Tonight's the night) girl, I'm coming over
(Tonight's the night) when I need you home
(Tonight's the night) girl I'm calling for you
(Tonight's the night) please don't leave me lonely...

What do you want
What do you need
Tinted windows in the back of the jeep

Stacking in silence no need to speak
Girl, you're the baddest no need to teach
When I get the bag lets blow this for weeks
Don't look at the tag girl no need to peek
Every penny spend it over and over
Airbnb when we are done with the chauffeur
