Down There

T-Pain

Things ain't looking good
Seems like there's no way to go except where I am
Right now, tryin to get about this hood
Need to go somewhere I know, some people show me how
To make things better I know it's possible
Even in stormy weather, it feels good to know
You was everything must have... it off
Uhh, but it's going down down down
Uhh, down down, uh, down down

It might seem like I don't carry on
That's why I don't come around round, round
And I keep my ass where I'm supposed to be down there?
Do I keep my ass where I'm supposed to be down there uhh
And I keep my ass where I'm supposed to be down there
Do I keep my ass where I'm supposed to be down there?
Down there

Now enough is not enough, I'll ask myself what I'm doing here still
And I can't believe it's this hot to leave the ground
When that is all I sing about my God,
But who is gonna save me now now
Do us everything what's happen off
But it's going down down down uh uh
Down down uhh, ohh

It might seem like I don't carry on
That's why I don't come around round, round
And I keep my ass where I'm supposed to be down there?
Do I keep my ass where I'm supposed to be down there uhh
And I keep my ass where I'm supposed to be down there
Do I keep my ass where I'm supposed to be down there?
Down there

All the sudden everything went south bound
And don't nbody wanna open up their mouth now
'Cause they don't walk to a fan and their family your friends
I guess is just all the benz who fall the shit really is, right?
Who... is way I'm doing things
My mind raise enough and feel like I'm doing two a day
Understand it's what it take for a man
And stopping from fucking numb
Whenever hits like is zob
Tick it, tick it that's what's up

Do us everything what's happen off
But it's going down down down uh uh
Down down uhh, ohh

It might seem like I don't carry on
That's why I don't come around round, round
And I keep my ass where I'm supposed to be down there?
Do I keep my ass where I'm supposed to be down there uhh
And I keep my ass where I'm supposed to be down there
Do I keep my ass where I'm supposed to be down there?
Down there
