Way on the top with me and my niggas

Everybody bow your head and tell the whole city

Rest in peace to the parking lot (yeah yeah)

Me and my niggas came and shut that bitch down

You know the club got my name on the parking spot

All of you niggas bout to hate on us now

Rest in peace to the parking lot (yeah yeah)

Me and my niggas came and shut that bitch down

You know the club got my name on the parking spot

All of you niggas bout to hate on us now

We open up the trunk and the back door

Now you ain't bout to get your whole bag no

Yo bitch chose me that's a scratch though

Welcome to the Tallahassee cadillac show (yeah)

Big booty bitches poppin pussy in the drive through

She dippin with me and her friend wanna slide through

She like the way that them 24s glide ooh

Her nigga whip don't ever ride like mine do

So look at all these Chevrolets around us

The people trying to find a way to impound us

The Big wheels come and break the ground up

Speakers sounding like an earthquake you found us

As you can see I'm the one doing the eulogy

Ain't no way to try to survive (Hell nah)

That music be moving the whole community

That bitch ain't about to come back alive

Rest in peace to the parking lot (yeah yeah)
