She's got a greased like chalice back like a blue sharks fin (like a blue shark) Well she moves like a mammoth she's fine with her ebony skin (like a blue shark)

Over and over the sighed over and over she cried she's sanctified

Hammer-head abandoned who sleeps like the leaves of spring (like a blue shark) Well exhausted like a mammoth a mammoth child, a real tough thing (like a blue shark)

Over and over she sighed over and over she cried she's sanctified

She's got a greased like chalice head like a rubber band Well she walks like a mammoth her skin is like ebony blue
