

# Token of My Love

T. Rex

With your stained glass look  
Ahh.....

Well do you remember when we met  
You stuck behind me like a stained glass net  
And I'm broken  
Is that a token of your love  
Is that a token  
A token of your love

Do you remember when we met  
You moved behind me like a stained glass net  
And I'm broken  
Is that a token of your love  
Is that a token  
A token of your love

Everyday, every single day  
My heart is broken,  
Oh yeah  
Everyday, every single day  
Does this mean my love has been awoken

Do you remember when we met  
You moved behind me like a stained glass net  
And I'm broken  
Is that a token of your love  
Is that a token  
A token of your love

Everyday, every single day  
My heart is broken,  
Oh yeah  
Everyday, every single day  
Does this mean my love has been awoken

Do you remember when we met  
You moved behind me like a stained glass net  
And I'm broken  
Is that a token of your love  
Is that a token  
A token of your love

Is that a token  
A token of your love
