

Glitter

Ta-ku

Glitter's sparklin' on your heart now, darling
Won't you stay?
I'm here wonderin' what to say
You're putting me away

I know it's getting late now, baby
Maybe you should stay here with me
Let's just make it our own party
Stick together like glitter

Glitter's sparklin' through your eyes, it's funny
You should say
You said time would only tell, now
You're six feet away

I know you're still awake now lately
Thinking 'bout the way you would make me
Let's just make it our own party
Stick together like glitter
Ooh-ooh, ooh-ooh, ooh-ooh

Like glitter
