

## INNER SOUL

Ta-ku

I know your loving comes from the inside  
Never had a doubt at all  
That you're staying with me right through the end times  
Even when the sky is falling  
I'm talking about your soul, baby  
Girl, you stay on my mind  
I know I want it all, yeah  
I'mma say it one more time

I'm talking 'bout your inner soul  
Like the way you read my mind  
I'll never leave your body alone  
Put your hips so close to mine  
You've been talking 'bout your problems, don't  
Hesitate to speak your mind

I never felt like this before, it's something new  
Your spirit is what I adore, I'm stuck on you  
Hot like Arizona, I'm melting through  
There's something in the water  
Got me thirsty for you  
Baby, show your spirit to me  
Let me taste all your flavors  
Connection sweet like tangerine  
Peeling back all the layers  
I am in ecstasy  
Everything I need on paper  
I know what we have is real deep  
I wonder where love could take us, really take us

I'm talking 'bout your inner soul  
Like the way you read my mind  
I'll never leave your body alone  
Put your hips so close to mine  
I'm talking 'bout your inner soul  
Like the way you read my mind  
I'll never leave your body alone  
Put your hips so close to mine  
You've been talking 'bout your problems, don't
