

KNOW ME

Ta-ku

Tell me that you need me
Tell me that you feel the same
Tell me that you know me
'Cause you probably never felt that way

You know when I wanna go
What you worried for?
I know when I'm on a roll
And it ain't fair, I know, but
Please, baby, be patient
We need to feel the same in our company
'Cause when I get stuck, I'mma call ya
And if you don't pick up, what am I gon' do?

Tell me that you need me
Tell me that you feel the same
Tell me that you know me
'Cause you probably never felt that way

Think that I could feel the same
Give love a chance, give it some space
There is no rush, there's no one way
I could take things slow all day
You'll know when you know
Let me be free to show you
I'd rather not force it
'Cause I could feel the same
Life and love without the worry
Trust me with my feelings, I deserve it
Don't wanna convince you of the journey
Life and love without the worry
Trust me with my feelings, I deserve it
Ooh, we're on a journey

Tell me that you need me
Tell me that you feel the same
Tell me that you know me
'Cause you probably never felt that way
