LIGHTNING

Ta-ku

I wanna stay
Stay in the lightning
Hot summer rain
Out where it's bli—, it's bli—

I'm hot and bothered, it must be all the covers
Or a shift inside the atmosphere
Psychosomatic, I love that kind of static
I would hate for it to disappear
You brought the color to the summer of my life
I'm gonna save it just in case it don't hit twice

I wanna stay
Stay in the lightning
Hot summer rain
Out where it's blinding

I feel surrounded, your energy keeps me grounded
Now I'm bound to see the sparks appear
Too much to handle, it's pulling me different angles
And losing you is my biggest fear
I feel you moving on
Get closer, it's cold outside
Your body's warm enough to help me to close my eyes

I wanna stay
Stay in the lightning
Hot summer rain
Out where it's blinding

I wanna stay
Stay in the lightning
Hot summer rain
Out where it's blinding
