

## Love Again

Ta-ku

Give it time, give it time  
Cause this ain't no race no  
You'll be fine, you'll be fine  
Do whatever it takes oh  
Just realize, realize  
It's all what you make it  
Truth and lies, Truth and lies  
The real and the fake yeah

See you and me, we make believe  
We stand for something  
But who says, who says  
Something is better than nothing  
See you and me, we make believe  
We stand for something  
But who says, who says  
Something is better than nothing

Said I don't wanna do this again  
See this ain't the time to pretend  
You'll know I'll make it better if I can  
Cause I don't want to do this shit again

See you know  
I don't mean to hurt you  
But we all know that I might  
Nobody's perfect baby  
I know I don't deserve you  
But you saved my life

Said I don't wanna do this again  
See this ain't the time to pretend  
You'll know I'll make it better if I can  
Cause I don't want to do this shit again

Another day another day (another day of you)  
See your face, See your face

See you and me, we make believe  
We stand for something  
But who says, who says  
Something is better than nothing  
See you and me, we make believe  
We stand for nothing  
But who says, who says  
Something is better than nothing
