

# THROUGH AND FALLING

Ta-ku

She said she'll be coming on back  
Until then, I'll just keep falling through the crack  
She said she'll be coming on back  
Until then, I'll just keep falling through the crack

She said she'll be coming on back  
Until then, I'll just keep falling through the crack  
She said she'll be coming on back  
Until then, I'll just keep falling through the crack

Just keep falling through the crack

Eyes wide  
Kept me calling  
I tried  
But I'm falling  
At night  
Heart stays frozen  
White lies  
But I'm calling

Through and falling  
Through and falling  
Coming back  
Through and falling  
Coming back  
Through and falling
