Tab Benoit

I'm addicted baby
It's plain to see
Your love got a hold on me

I'm addicted baby
It's a natural fact
No drug could ever do me like that

You come on like an angel
So cool and discreet
When you move through the crowd, lord
I said they're fallin' at your feet

Ya start swayin' to the music
Babe you're lookin' so right
I wanna love you forever
Startin' tonight

(musical interlude)

I'm addicted baby
It's plain to see
Says your love got a hold on me

I'm addicted baby
It's a natural fact
No drug ever do me like that

No one has ever moved me
Exactly like you do
The sweet woman-child
Ain't nobody like you

When you do me what you do me
Lord the fever start to burn
Now you got the power
Aww for your love to yearn

(musical interlude)

I'm addicted baby
It's plain to see
I said your love got a hold on me

I'm addicted baby
It's a natural fact
That no drug ever do me like that
