

Come And Get It

Tab Benoit

The night ain't over, baby
I got a lot of shaking to do
Won't you come over, baby
I wanna dance with you
So put your arms around me
Baby, better hold on tight
Don't worry 'bout tomorrow
'Cause baby, I'm yours tonight
Come and get it
Yeah, come and get it
Oh, come and get it
Ah, come and get it
Baby, let me tell you something
I got what you're looking for
Choose some hands to hold you
So meet me out on the floor

I'm gonna make the night last forever
Dancing till the morning comes
Baby, I got something for you
So let me show you how it's done
Come and get it
Oh, come and get it
Come and get it
Ah, come and get it
Come and get it
Yeah, come and get it
Oh, come and get it
One more time
Come and get it
Hey baby, come and get it
Oh yeah, come and get it
Ah, come and get it
