

# Long Lonely Bayou

Tab Benoit

Well she was mine and I was fine back then  
I tried to say how much I loved her till the end  
And there were times I could've said what I want to

And now she's gone  
And I'm the Long Lonely Bayou

Now I'm filling up from the rain  
Still water is killing my veins  
My heart is drifting like an old Pierrot  
There's been a time with nowhere to go  
I found it hard to snake my way through the trees  
I can't even get a push from a breeze  
I was a man who found a love so true

And now she's gone  
And I'm the Long Lonely Bayou

Now I'm filling up from the rain  
A still water is killing my veins  
My heart, Lord, is drifting like an old Pierrot  
There's been a time, I got no place to go

I found it hard to snake my way through the trees  
I can't even find a push from a breeze  
I was a man who found a love so true

And now she's gone  
And I'm the Long Lonely Bayou  
And now she's gone  
And I'm the Long Lonely Bayou
