So High

Tab Benoit

```
If you're down and out
Feel you're gonna cry
If you're down and out
Feel you're gonna cry
You just call on me, baby
I'll make you feel so high
If you man don't love you
Feel he's doing you wrong
If you man don't love you
Feel he's doing you wrong
You just come on back to my place
I'll make your blues be gone
Well I want you to love me
But you're stuck with him
You know I can make you happy
Lord it's a sin that you have to be so sad
Baby please don't cry
You just call on me baby
I'll make you feel so high
Oh yes I will baby!
```
