

Solid Simple Things

Tab Benoit

My baby don't have to try
Lord to turn me on
I know that she's the one
Who could love me till the break of dawn
I want to feel her in my arms
As I fall asleep tonight
Just a solid simple thing
Like her touch can bring me comfort through the night
(Solo)

Now she don't have to speak
But I know just what she means
Cause she never asks me
For more than the simple things
And now we're building a home
And we're making it strong

Just a solid simple thing
Like our love is what we're building it on
(Solo)

Now she don't have to speak
But I know just what she means
Cause she never asks me
Lord for more than the simple things
And now we're building a home
And we're making it strong
Just a solid simple thing
Like our love is what we're building it on
Hey just a solid simple thing
Like our love is what we're building it on
