## **Another Time Around**

**Tad Morose** 

Don't tell me life is for the living The voices that I hear say it's not so I fear they just pretend to hold the answer...

They tell me life's what we're given Then nevermore, but hey, you never know Believe me, in time there's no tomorrow So wish me well I feel it's time to go

Another time around Another song, another crown New faces hide the cards Turn them down A masterful design Not once upon a time And still we dream We hope for something more

They told me - I saw Holy fire, oh the burning of us all Another time around

Don't want to face the day still unforgiven No, I don't want to see the end at all Don't want no brave new world tomorrow Forevermore to one and all

They told me - I saw Holy fire - ooh, burning in us all Another time around
