

# Salvage My Soul

Tad Morose

Black as the night  
all is dark all I can see  
Indefinable shapes  
around me  
I don't know where I am  
I've lost all sense of time  
I have forgotten  
what I was, what I am.

I close my eyes  
and I dream away  
Faraway from darkness  
A dream of light,  
of serenity  
But I know  
It is a pipedream  
All is lost

A quest for light  
To eradicate  
the dark within me  
To shelter me  
and to take away my pain  
I don't know what is right  
So hard to understand  
When white is black  
and black is white

I close my eyes  
and I dream away  
Faraway from darkness  
A dream of light,  
of serenity  
But I know  
It is a pipedream

A thousand dreams  
within a dream  
In which all  
I fall to my knees and pray  
Salvage my soul

You wept  
you bleed out in vain  
Mankind has failed.
