

Candi
Why don't you leave me alone?
And I'll be there
So, come and torture me
And I'll be there

Set me free
Let me be
Set me free

On your leash
Under your thumb
Look at me and what I've become

Set me free

On your leash
Under your thumb
Look at me and what I've become

Candi
You're no good for me
But I'll still eat
And I won't lose any sleep
And I'll be there

Set me free
Let me be
Set me free

On your leash
Under your thumb
Look at me and what I've become

Set me free

On your leash
Under your thumb
Look at me and what I've become
