Cyanide Bath

Tad

Raw and hard I see stars
50 pounds sledge pounds hot metal bars
Fired and cooled, cold and charred
Acetylene torch cuts steel like lard
Molten hot, stinging cold
Dirty nasty made me old
Smoldering forge, I see sparks
Impurity has burned and warped our hearts

Drag out baby drag out
Drag out baby drag out
Drag out baby drag out
Drag out impurity drag out

Toxin toxin covers me
Bathe me cold and dip me deep
Cleanse me baby of impurity
Cyanide wash the rust off me
Iron oxide made me old
You cash the check saved my soul
Melt me down, burn me out
Lathe me baby, straighten me out

Drag out baby drag out
Drag out baby drag out
Drag out baby drag out
Drag out impurity drag out
Drag out baby drag out
Drag out baby drag out
Drag out baby drag out
Drag out impurity drag out

Drag out baby drag out
Drag out baby drag out
Drag out baby drag out
Drag out baby drag out
Drag out baby drag out
Drag out baby drag out
Drag out impurity drag out
Drag out impurity drag out
