

I won't let you let me down
I won't let you let me down
Don't gimme no shit
Or breathe a sound
I won't let you let me down

You couldn't sell me out
Not this time around
All the tales you tell
You can't hide from this hell

I won't let the sun burn out
I won't let that truck run me down
Don't gimme no shit
Or breathe a sound
I won't let you let me down

All you planned was grim
Tried to dig right in
You couldn't sell me out
Not this time around
All the tales you tell
You can't hide from this hell
