Tad

Good God yeah

You'd go to battle
Without an army
Your imperfection shows right through

Put forth aggressions
Without compassions
Bad intention follows you

I won't be tellin' you
I'm not better
I won't be tellin' you
I'm not better

Don't lie to me
Don't cross that river
Nobody made you play that game
You've got your guard up
Shove words in my mouth
You think the earth moves just for you

I'm no better than you
I'm not denying
I'm no better than you
I'm not denying
I'm no better than you
I'm not telling
I'm no better
I'm no better!
Better!
