

Tuna Car

Tad

Down by the beach I do not know
Where I'm going, who's to know
Gas in the car and there's food in the fridge
Beer in the fridge and a lot of fish

Well there's snow on the ground on the streets in the ditch
Gases attack is going to make a mess
Well there's snow on the ground on the streets in the ditch
I don't know why you struggle
Yeah yeah!
Yeah yeah!

Gas in the tank
In the tuna car
I'm not going very far
Going down, down, down down to the ground
Down down down
Downtown

Yeah!

Where you drive up and down
Like a mouse all day
Find that car with a bale of hay

Well there's snow on the ground on the streets in the ditch
I don't know why you struggle
Well there's snow on the ground on the streets in the ditch
