

good in bed

TAEIA

Go ahead and tell everybody that I'm crazy
I don't even care if you say how much you hate me
I can take the blame baby
None of that can phase me now

Find another bitch
Maybe try staying sober
Tell her that I suck
I'm the reason that it's over
Bet you think about me
Every time you bend her over
How are you still

Talking 'bout me like that
Always saying you don't wanna take me back
Acting like you didn't have a damn heart attack
When I left your ass
Then I left your ass on read

You're nothing but a liar
Quit acting like I'm dead
'Cause you're calling me every night Saying that I'm still the best you've h
ad
Can't have me in the bedroom
Guess I still make you sweat
Too easy to see through
No one would believe you
If you tried saying I'm not good in bed

Did you say I called your girl
Just to throw a couple tips out
How I'm super bad
And you really miss my lips
Now every single day you think about the things we did
The sex is in your brain
Yeah it's gotta sound insane when you're

Talking 'bout me like that
Always saying you don't wanna take me back
Acting like you didn't have a damn heart attack
When I left your ass
Then I left your ass on read

You're nothing but a liar
Quit acting like I'm dead
'Cause you're calling me every night Saying that I'm still the best you've h
ad
Can't have me in the bedroom
Guess I still make you sweat
Too easy to see through
No one would believe you
If you tried saying I'm not good in bed
