

keep your demons

TAEIA

Tryna get my head right
But this shit has me up thinking bout you all night
Every memory you left me was a bad vibe
But it's alright, cause I'm alright

And I'm healing
But the scars upon my body are still bleeding
And it's been a couple years but you can see it
You're the reason
You're the reason

I don't know what you're calling me for
Like you don't have one foot in the door
And you're not just gonna leave when you're bored
Yeah we've been here before

Now you're wasted, doing all the same shit
Still can't seem to face it
Cause I wouldn't let you take my strengths
And turn them into weakness
I don't fucking need this
You can go ahead and keep your demons
(You can go ahead and keep your demons)

Everybody warned me
To be careful with a man who's fucking lonely
I believed all of the stories that you told me
Then you owned me, for a while

Convinced me I was crazy
Had me looking at myself like I was changing
But the truth is, it was only what you made me
Let you play me, for a while

I don't know what you're calling me for
Like you don't have one foot in the door
And you're not just gonna leave when you're bored
Yeah we've been here before

Now you're wasted, doing all the same shit
Still can't seem to face it
Cause I wouldn't let you take my strengths
And turn them into weakness
I don't fucking need this
You can go ahead and keep your demons

Wasted
Doing all the same shit
Still can't seem to phase it
Cause I wouldn't let you take my strengths
Turn 'em into weakness
I don't fucking need this
You can go ahead and keep your demons
