

## not my problem

TAE LA

I hate that you treat me so bad  
Why do I come back the second you want me  
Just like that you make me so sad  
But fuck I still beg for it  
Like I'm nothing

I never wanted us to change our story  
Really tried to see it through the end  
But you're a mess  
Don't say you love me like you're not just horny  
Over only getting you to talk to me with sex

You wanted distance but it pissed you off right when you got it  
You say I never listen but you're never fuckin honest  
You always end up doing this  
I think you're really losing it  
Maybe I was just your karma  
Now that's not my fuckin problem

It's my pain but I take the blame  
For all of your rage and baby that's dangerous  
You confess the shit  
I undress for it  
And I cheer for you like you're famous

I never wanted us to change our story  
Really tried to see it through the end  
But you're a mess  
Don't say you love me like you're not just horny  
Over only getting you to talk to me with sex

You wanted distance but it pissed you off right when you got it  
You say I never listen but you're never fuckin honest  
You always end up doing this  
I think you're really losing it  
Maybe I was just your karma  
Now that's not my fuckin problem

You always end up doing this  
I think you're fuckin losing it  
Maybe I was just your karma  
Now that's not my fuckin problem
