TAELA

Riding in your old ass Chevrolet
Leaving in the black top high we chased
Don't wanna take you back to my place
Let's go burn these backwoods down back ways

The anticipation
Yeah, my heart is racing
These tires might fly off the fra-a-ame
It's midnight in Mason
You smoke and I taste it
Then we just get carried away-way-way

We rollin'
Buckle up baby
Let's keep it goin'
I ain't even tryin' to control it
We can take it down town
I just wanna mess around with you
And it's here we go
Rollin'
Buckle up baby
Let's keep it goin'
We don't gotta try and control it
Take a ride with me and now
I'm just trying to mess around
If you wanna mess around

(If you wanna mess around)
(We rollin')

Trucking
The only thing that's lifted
Boots on the runner
I had to jump to get in to it
Turning me on
Spinning on four wheels
I'm taking it off
There ain't nobody out here

We rollin'
Buckle up baby
Let's keep it goin'
I ain't even tryin' to control it
We can take it down town
I just wanna mess around with you
And it's here we go
Rollin'
Buckle up baby
Let's keep it goin'
We don't gotta try and control it
Take a ride with me and now
I'm just trying to mess around
If you wanna mess around

Rollin'
Rollin'
Rollin'

Rollin'

The anticipation
Yeah, my heart is racing
These tires might fly off the fra-a-ame
It's midnight in Mason
You smoke and I taste it
Then we just get carried away

We rollin'
Buckle up baby
Let's keep it goin'
I ain't even tryin' to control it
We can take it down town
I just wanna mess around with you
And it's here we go
Rollin'
Buckle up baby
Let's keep it goin'
We don't gotta try and control it
Take a ride with me and now
I'm just trying to mess around
If you wanna mess around
