□□□□□□ up on Mars

It shone in the distant sky, a fire becoming red
The star of passion Mars
You fly me, I found you
Burn up my passion
I'll dream tonight too
It's like cosmic love
Close your eyes
This world is only ours, oh
I'm gonna show you
A thousand stars
Once we hold hands, oh

Dancing on Mars
I don't want anything else
Let's make a breathtaking kiss
Dancing on Mars
I'm gonna take you
Be drawn to each other in a world without gravity
On Mars

We'll be dancing
Just the two of us up on Mars
We'll be dancing
Secret love is up on Mars

Please be with me
You are Aphrodite
I won't stop, oh

The moon is not visible
Only words spoken with eyes
If we hold each other close, oh

Dancing on Mars
Anyone else knows

Fill the dry heart with love
Dancing on Mars
I'm gonna take you
Be drawn to each other in a world without gravity
On Mars

We'll be dancing
Just the two of us up on Mars
We'll be dancing

Won't let you down
Won't let you fall
We go around, oh
Scattered stardust
Your illuminated smile is not a dream

This is cosmic love
Keep it around
This world is only ours, oh
I'm gonna show you
A thousand stars
Once we hold hands, oh

Dancing on Mars
I don't want anything else
Let's make a breathtaking kiss
