Mystery lover

I was connected to you one night
And another night I wasn't in control
This string of fate is too transparent
It excites me

I dance as if I were still dreaming
You make me feel alive
Go on taste my heart, deep inside my heart
I deeply yearned for you and seduced you

Past the fantasy spreading white
Mystery lover
Reach out your soft hand and embrace me
Mystery lover

It's midnight already, I'm sunken in the moonlight
I'm here alone, go on
Call me with your voice that waited for me
Call my name, breathe into me again

I dance for you (when the night comes)
I sleep next to you (don't be afraid)
Go on taste my heart, wrapped in my heart
Free me from being tangled in loneliness, girl

Past the fantasy spreading white
Mystery lover
Reach out your soft hand and embrace me
Mystery lover

In beautiful memories, you used to smile
Mystery lover
You haven't come back to me but you're still
My mystery lover

It was a beautiful dream that
Is going far away into the distance, this reality yeah
In this deep darkness I only waited for you
This night that time caressed

I hope to dance with you like a waltz
Still still you don't come back to me you

I dance for you (when the night comes)
I sleep next to you (don't be afraid)
Go on taste my heart, wrapped in my heart
Free me from being tangled in loneliness girl

Past the fantasy spreading white
Mystery lover
Reach out your soft hand and embrace me
Mystery lover

In beautiful memories, you used to smile
Mystery lover
You haven't come back to me but you're still
