Now let me say yeah yeah yeah yeah

I'm afraid to spend even a moment apart from you  
Every night, it gets harder and harder to send you away  
I wanna rock with you till there's no end  
Your everything is so beautiful

Already in the time spent with you I can't find the old me  
I know I can't control  
I've come too far  
To be honest I do feel afraid but

I can't stop this feeling  
It's just a feeling, my heart almost bursting with thrill  
It's just a feeling, this sense of having the whole world  
It's just a feeling, I'm not afraid of any kind of pain  
This must be feeling of love

You got me singing yeah yeah yeah yeah  
You make me say yeah yeah yeah yeah  
You got me singing yeah yeah yeah yeah  
Now let me say yeah yeah yeah yeah

My heart, as ever, trembles at your scent/perfume  
Even when you're not around, I call your name like a habit  
I wanna make love to you... baby, say my name  
One more time, and one more time... let's do it again

Within your warm embrace, I can no longer hold back  
I know I can't control  
I've come too far  
Yesterday... Today... I can't make it one day,  
Not one moment without you

It's just a feeling, my heart almost bursting with thrill  
It's just a feeling, this sense of having the whole world  
It's just a feeling, I'm not afraid of any kind of pain  
This must be feeling of love

You got me singing yeah yeah yeah yeah  
You make me say yeah yeah yeah yeah  
You got me singing yeah yeah yeah yeah  
Now let me say yeah yeah yeah yeah

Don't say anything  
Just come closer to me  
Right now, this feeling to me is more dear than anything, oh~

It's just a feeling, my heart almost bursting with thrill  
It's just a feeling, this sense of having the whole world  
It's just a feeling, I'm not afraid of any kind of pain  
This must be feeling of love

You got me singing yeah yeah yeah yeah  
You make me say yeah yeah yeah yeah  
You got me singing yeah yeah yeah yeah  
Now let me say yeah yeah yeah yeah
