Put your hands up like the country's been liberated
Run like you'll twist your ankles
Shake it like you have a spasm
Everyone sing along

My name is T to the A to the E (to the)
Y to the A N G (hot, it's hot)
I'm always hotly burning up (boiling)
Girls cry over my body, my songs
Whether it's a slow jam or a dance
Just trust your body
Don't be scared, just close your eyes
Wanna get high? Then be my pair
We'll go on a rollercoaster ride tonight
There's no seat belt
You just need to sit next to me

Don't stop baby don't kill my vibe
Because I like how things are going right now
To the left, to the right, follow me just like tha
Yeah ah ye ye yeah

Put your hands up like the country's been liberated
Run like you'll twist your ankles
Shake it like you have a spasm
Everyone sing along

It's a fiery Friday night so be careful of the burn
The crowd looks good
So don't worry and keep your body movin'
We partying so hard like it'll break
Monday is so far, like it'll never come again
Forget everything of yesterday
Just like how you did with the day before
Erase everything of tomorrow
Just like it's someone else's business
Everyone jump jump jump
As if you're playing jump rope
Ladies bump bump bump
Shake shake that thing for me

Don't stop baby don't kill my vibe
Because I like how things are going right now
To the left, to the right, follow me just like tha
