Baby let's take it slow

Whenever my hand touches you, I smile shyly
Tell me that you honestly want me, too
I've tried to control myself, but whenever I look at you
I want to have you, I just want you to know

Oh, I sometimes dream about you
It's hard to control myself now
Baby take it slow, no,
we can take it slow
You're at my fingertips and closing your eyes little by little

Baby let's take it slow,
baby let's take it slow
Right now, when I've gotten you, who I've always dreamt of
Baby let's take it slow,

(baby ah)
so that I can feel even your small breaths
(Baby ah)
I wish time would stop so this time together would last forever,
baby let's take it slow

When your hands touch me, I imagine countless things
Even if I try to think of other things
When you look at me
You see that I'm left breathless

Just come close to me, who is like that
I'll give you everything I have
Baby take it slow (oh), no,
we can take it slow
You're yelling because of my lips and the way I move,

Baby let's take it slow,
baby let's take it slow
Right now, when I've gotten you, who I've always dreamt of
Baby let's take it slow,

(baby ah)
so that I can feel even your small breaths
(Baby ah)
I wish time would stop so this time together would last forever,
baby let's take it slow

A little deeper, baby up and down.
Tonight you and I, we just bounce
Tell me if there's anything else you want,
for this moment to last like this forever

Baby let's take it slow (baby, take it slow),
baby let's take it slow (baby, take it slow)
Right now, when I've gotten you, who I've always dreamt of
Baby let's take it slow,

(baby ah)
so that we can fall asleep exhausted when morning comes
(Baby ah)
I want all of you,
baby let's take it slow
