□□□□

Burn it down now

□□□□

Burn it down now

It finally collapsed

When you look at me

How do you feel? Yeah

Like a broken statue

Sharp tip

The real end has come true, oh

To the harsh words that cut me out

Locked in there for your own reasons

After stocking and cutting here and there

It's you who turned around

In the lies you made yourself

Ignoring all the shadows in my heart

Me wandering through gray smoke

What do you want?

So if you leave me

Disappear far away

It's broken

My appearance

Burn it down now

Deeply embedded within me

Even your traces

Without leaving anything behind

Burn it down now

It's probably just a farewell

To my foolish self

Conclusion that was wrong from the beginning

No matter how much I think about it

There won't be any sincerity

Maybe to you I

It's just a light stimulus

In your hand that covered my eyes

Forgetting even that trivial question

I believed that it was all love

What do you want?

So if you leave me

Disappear far away

It's broken

My appearance

Burn it down now

Deeply embedded within me

Even your traces

Without leaving anything behind

Burn it down now

Foolishly

I can finally see it now

You are completely different from me

Me again, oh, oh

So innocently

I was only looking at you

I'm not there then

In your hands, I am gone

Without leaving anything behind
Burn it down now
Without leaving anything behind
Burn it down now
