Let's dream together

This dream about floating around in the night  
A long dream  
You and I wander in a long dream  
If you want, I'll pick that star and then  
I will circle around us  
Yes, like that  
I'll circle around us  
So that we keep shining  
Raise your head and look up at the stars  
Swimming in the sea of stars  
After lighting up that moon, I  
I burn the noon down  
In the shimmering night, yeah

Can you see my sign  
Now I'm trying to connect  
Look into your heart  
What you want  
Linkin with my mind  
Now, you're thinkin' about my side  
The universe you draw  
I'll give you the location

The gravity of the planet pulls you  
Because our dreams are so big  
I dream of oddity, oddity  
It's 404 gravity, gravity  
A hundred miles an hour driving  
With no headlights  
Speeding down the open road  
Staying out of sight  
Try changing what has been decided  
And hug me  
I am living in the moment  
We're drunk  
Enjoy the deviation, make it fire  
Dream of being rich  
In my many dreams  
In the meantime  
We just dreamin'  
In your mind, yeah

With just one fire  
I burned it down tonight  
You and me together  
We shine on this planet  
White deer and  
A sun's dream that makes sense  
Standing at the end  
Let's kiss  
So I can feel you  
Your everything  
I can feel it  
In the middle of the center of this universe  
You are standing  
You always motivate me  
Loading to me, baby
