It's okay, it's okay now
It's okay, it's okay
I'm used to it, I'm used to it now, oh

We go inside of the empty space
The color inside of it is blue
The end of it is the universe
It comes to me, out of the blue
We go inside of the empty space
The color inside of it is blue
The end of it is the universe
It comes to me, out of the blue

We fly high
We fly high

I can fill this void if you want it
I won't go in too deep
The side of your heart that is aching
I hope you show it to me, it won't be embarrassing
Just pour it all out
Dive in the blue, dive in the blue with you
Dive in the blue, dive in the blue with you
The longing and loneliness too, eh, eh
Pour out everything

I've been feeling out of my
I've been hiding and blaming myself again
I know it's wrong, but I keep doing it

I need you tonight
How do I live now? Where do I go now?
Don't wanna live a liar, yeah
This long you, this long night
This long you, this long morning
In this long life, it's like I'm fading into ashes

I wanna fly high
I wanna fly high

I can fill this void if you want it
I won't go in too deep
The side of your heart that is aching
I hope you show it to me, it won't be embarrassing
I'm exhausted by everything
I'm tired of this everything
At the end of the day
So the day can be bright again

In my dreams, I'm drowsy again
I spit out something new to fill in the holes
I set a path to see my reflection in the mirror
So that I can learn to love myself just the way I am, woah
Even if you can't understand me
Please grab me and hug me until this day ends
Some people call me a fool
Some people say I shouldn't try to understand others
Yet the resentment would confine me
And keep me from getting out of it

I can fill this void if you want it
I won't go in too deep
The side of your heart that is aching
Pour out everything to me
I can fill this void if you want it
I won't go in too deep
The side of your heart that is aching
I hope you show it to me, it won't be embarrassing
Just pour it all out
Dive in the blue, dive in the blue with you
Dive in the blue, dive in the blue with you
The longing and loneliness too, eh, eh
Pour out everything to me

Dive in the blue, dive in the blue with you
The longing and loneliness too, eh, eh
Pour out everything
