Took a flight go to the cloud 9
Borrowing the sky for a moment
You and I, we're flying anywhere
Let's show how we fly oh no

Get out of town Get out of town
The violet sky and I are dancing
At dawn, inside the fragrant smoke
I'm sending the words (yeah yeah yeah yeah)

Parking between the clouds
Blankly staring outside
You can stop for a moment
Between the windows
The light spills in

Spreading in the prism of my eyes

It's enough but I'm still starving baby
Wanna go up much higher hey
So we can reach the sky
So we can take in the world with one breath

You can see how love it (yeah yeah)
Shall we gonna check it (yeah yeah)
Above the sky, cruising (yeah yeah)
Above the clouds, diving
Yeah yeah yeah yeah

Secret walkie-talkies
Throw away all other thoughts, hey
Puffy puffy clouds have blossomed
Hold steady, come inside my word bubble

Now the size of my heart is only a real whale
The shark in my mind is no longer there
Dance in the swimming pool that is the sky
My lips are numb from the cold air

Can't get em out of it
Get em out of it
Help me
Pulling me down
Pulling me like Gravity
Driving the spaceship like that
Into the infinity, cosmos like that

It's enough but I'm still starving baby
Wanna go up much higher hey
So we can reach the sky
So we can take in the world
With one breath

You can see how love it (yeah yeah)
Shall we gonna check it (yeah yeah)
Above the sky, cruising (yeah yeah)
Above the clouds, diving
Yeah yeah yeah yeah

We will be saying woo ah
Call me I'll say woo ah
Call me I'll say woo ah
Call me I'll say woo ah

Groovy ooh
Groovy groovy like
Shimmy shimmy shake it like
Let's fill up our uncontrollable hearts with something sweet
In this itty bitty jar
There's gelato and ice cream
It adds flavor to our Sahara like mouths
1 scoop 2 scoop
Skrr skrr

It's enough but I'm still starving baby
Wanna go up much higher hey
So we can reach the sky
So we can take in the world with one breath

You can see how love it (yeah yeah)
Shall we gonna check it (yeah yeah)
Above the sky, cruising (yeah yeah)
Above the clouds, diving
