

## Darlin' (Adam & Eve Song)

Tahiti 80

Here it is, she picked it off  
In the garden just for me  
I can have it now  
Or save it for later

Wanna trust her but the head on my shoulders  
Cannot tell what's good from bad  
I'm pretty sure I could use it  
But I don't need another burden to carry

Darling I don't want to let you down  
But I can't play the game with your rules  
Deep down I know I will mess it up  
Spend the rest of my days with those blues

Darling I know you want it as much  
As much as I want it too  
Darling I know for sure  
Pick up the pieces

Asked me to follow her  
To a place where we can hide  
It's not even begun and it could be fun  
But I'm looking for a way out

On the slippery slope but there's still hope  
I'll get out of here alive  
Sorry, babe, I gotta go  
I'm afraid I never ever learned to say no

Darling I don't want to let you down  
But I can't play the game with your rules  
Deep down I know I will mess it up  
Spend the rest of my days with those blues

Darling I know you want it as much  
As much as I want it too  
Darling I know for sure  
Pick up the pieces

You follow traces, see many faces  
Give a few kisses, pick up the pieces  
You follow traces, see many faces  
Get a few kisses, pick up the pieces

Darling I don't want to let you down  
But I can't play the game with your rules  
Deep down I know I will mess it up  
Spend the rest of my days with those blues

Darling I know you want it as much  
As much as I want it too  
Darling I know for sure  
Pick up the pieces

Darling I love you  
Pick up the pieces

Darling I love you  
Pick up the pieces  
Darling I love you  
Pick up the pieces
